¹Coastal Management Program (FCMP) coordinates the actions of eight agencies and five water management districts using 23 statutes to protect Florida's coastal interests. The agencies that comprise the FCMP are:

- The Department of Environmental Protection (DEP), which is the lead agency for the FCMP and home of the State Clearinghouse. DEP serves as the state's chief environmental regulatory agency and the manager and steward of many of its natural resources;
- The Fish and Wildlife Conservation Commission (FWCC), which exercises jurisdiction over fresh and saltwater fisheries marine mammals, birds and both upland game and non-game animals, including endangered species;
- The Division of Historical Resources of the Department of State (DOS), which is charged with the protection of the state's historical and archaeological resources;
- The Governor's Office of Planning and Budgeting (OPB), which prepares the state's biennial budget and plays a role in the state's comprehensive planning process;
- The Department of Transportation (DOT), which is charged with the development, maintenance, and protection of the states transportation system;
